ABOUT OUR COLLEGE

Rabiammal Ahamed Maideen College for Women, was started in a humble beginning in Tiruvarur in July, 1999 when there was no exclusive women's college here. Girl students of this region were denied to get higher education in the absence of colleges exclusively for women. Our college was established to fill up this vacuum and to provide better opportunity for higher education to girl students from villages and semi-urban areas. The college has grown up in value, vision and volume in the past 26 years and reflects our country's ideological identity of unity in diversity. We bagged so far 61 university first ranks including gold medals and 1162 ranks together. Students are given parental protection, care and security at the college campus. The college campus is located in a panoramic, conducive and safe environment more suitable for girl students to assemble and study. For the convenience of girl students from remote villages, the college provides comfortable bus facility in different routes within a radius 60 km.

ABOUT OUR DEPARTMENT

The Departments of Computer Science, Information Technology, Computer Applications (BCA), Artificial Intelligence and Machine Learning (AI & ML), and Data Science stand as dynamic centers of academic excellence, Innovation, and technological advancement. Our departments actively promote experiential learning through seminars, workshops, Industrial visits, Internships, certification programs, Research initiatives, Hackathons and collaborative projects. These academic activities empower students to develop technical expertise, analytical thinking, leadership qualities, Innovation and entrepreneurial skills while preparing them to address real-world challenges. Our department students have achieved an outstanding academic accomplishment by securing 6 Gold Medals and 14 University First Ranks. Our Department has been honoured with the Best Department Award 6 times, recognizing its consistent excellence in academic performance and overall achievements.

ABOUT THE CONFERENCE

The National Conference on “Transformative Technologies in Artificial Intelligence, Machine Learning and Emerging Innovations” (NCTTAIME@26) offers a platform to explore the latest advancements in Intelligent Systems. It brings together researchers, industry professionals, and students to share insights and innovative ideas. The event highlights real-world applications across sectors like healthcare, finance, and education. It aims to bridge the gap between academic research and industrial needs. Join us to engage in discussions that shape the future of AI and ML.
